

Reggio Emilia Approach to Learning

Emergent Curriculum “Intentions” Lesson Planning in the Context of Projects

Individualized Planning Process:

Continuous written observations for each child- Get to know our individual children’s strengths and focus areas

1. Ongoing -> Document Group interests and Individual interests
2. Create name codes used in our “Intentions” with individual child’s focus areas
3. Teachers Support:
 - To think deeper and ask questions as they research
 - To document their progress and create projects based on children’s emerging ideas
 - Use educational tools to support improvement in focus areas such as DRDPs & ASQ-3’s
